Projects

League of Legends Log Reader (http://github.com/jshao/lolstat)   September 2014 - Current
- Reads the log folder from the system path and returns relevant
  information.

Personal Website (http://www.james-shao.me)   September 2014 - Current
- Hosted by github, I keep updated information about current and past
  projects. I also maintain and update the HTML and CSS files.

League of Legends Search (www.LoLSearch.net)   April 2014 - Current
- A website akin to the popular www.LoLNexus.com, I used Riot
  Game's developer API to create a search platform for live games.

Activities

Head of Asian Cultures Club (High School)
- Organized two K-12 school-wide events, coordinating resources and dozens of students
